

CONTRACTS LET FOR MACHINES

The contracts for the construction of two of the merchant mills in the Indiana Steel company have been let. The United Engineering and Foundry company of Pittsburgh, and the Pencoyd works of the American Bridge company of Philadelphia will build two 12-inch mills. The buildings for the mills are now being erected by the American Bridge company. Orders have also been placed for a quantity of costly machinery for these mills.

In speaking of the matter the Pittsburgh Times-Gazette says: "Orders were placed this week by the United States Steel corporation with Pittsburgh and eastern companies for a lot of costly machinery for the new Gary plant. The orders call for the building of a 10-inch merchant mill, which will be constructed and installed by the United States Engineering and Foundry company, and the Pencoyd works of the American Bridge company at Philadelphia will build two 12-inch merchant mills."

"The decision to locate merchant mills at Gary is not new, but the announcement that construction on these mills is to start this spring indicates, it is said by the steel men, that the corporation is preparing to meet an increasing demand for merchant steel, which is just now the backbone of the steel trade. The mills will require some months to complete. The buildings for the mills are being erected at Gary by the American Bridge company."

POSSIBLY
You think you are saving money by making your wife use the good, old fashioned coal range—the kind "Mother used to use." But just ask some of your neighbors, who **COOK WITH GAS**, about the comparative cost of gas and coal.
Gas is the best and cheapest fuel and a gas range can't be equalled for cooking and baking.
Our ranges are sold at cost and installed ready to use, without additional charge. You can't afford to be without one!
